

CROSS-COUNTRY SKI WEEK

Hotel Kalevala - Magic and Traditions

This holiday is perfect for you, who wish to do ski-tours directly from the hotel, enjoy good food and maybe a glass of wine in the evening and relax at the lobby bar by a fireplace. Still you have plenty of possibilities to try other activities as well. Our hotel offers snowshoe tours, husky safaris, winter fishing, rapid swimming etc. Or you can book our wellness treatments; traditional Finnish bone setting, massage, peat sauna, peat treatments, infrared sauna, aromatherapy bath...

Kuhmo is a small town in north east Finland. Surrounded by ancient forests and crystal clear lakes, this is a winter wonderland nestled in some of the deepest snow in Finland.

Next to the hotel is Kalevala Ski centre, which has several trails that are floodlit in the evening. In total we have about 80 km tracks, starting directly from the hotel door to the frozen lake and snowy forests. The level and length of ski routes vary from teaching basic techniques along short routes across the ice of the lakes, to week-long ski trips across the hills and forests.

Ski school begins

Ski tracks on frozen lake
